

CLEAN 3D LOGO

Clean 3D Logo

Hello!

Thanks for purchasing my template. I hope you like and find it usefull for your work. Shoud you have any problems with the project feel free to contact me using the contact form on my profile page.

Thing you shoud know:

Font: the font used is „Metropolis“:

<https://www.fontsquirrel.com/fonts/metropolis>

Setting that you need to set before rendering:

1. Logo
2. Text
3. Audio
4. Edit colors

1. Logo:

1. Import your logo in to After Effects.
2. In the project panel get into folder „_Edit“ > „1. Edit Logo“ > „Logo Placeholder“.
3. Open composition and put in your logo.

2. Text:

1. In the project panel get into folder „_Edit“ > „2. Edit Text“ > „Text Placeholder“.
2. Open composition and type your text.

For edit text characters color order choose this layer and play with scale slider in **Effect Control Panel**.

3. Audio:

1. Import your audio in to After Effects.
2. In the project panel get into folder „_Edit“ > „3. Edit Audio“ > „Audio Placeholder“.
3. Open composition and put in your audio.

4. Edit colors:

1. In the project panel get into folder „_Edit“ > „4. Edit Colors“ > „Color Control“.
2. Choose „Control“ adjustment layer and change what you need in **Effect Control Panel**.

You Are Done! Enjoy!
